Technology

PROTECTION AGAINST ELECTRIC SHOCK: Helmet providing protection against electrical hazards.

LAMP CLIPS: Helmet equipped with strong acetalic removable lamp carrying clips that are compatible with all headlamps with elastic bands on the market.

ECO LEATHER CHIN PAD: Chin pad with eco-leather chinstrap. The anallergic and washable chinstrap is extremely comfortable and helps to avoid irritation of the skin.

RING TO HOOK: Fitted with a special loop on the chinstrap which allows the helmet to be connected to the harness.

SANITIZED®: The Sanitized® treatment is an antibacterial treatment that acts as an internal deodorant counteracting the development of unpleasant odors. Thanks to its hygienic function, it effectively prevents bacterial proliferation by increasing freshness and comfort of the fabric in contact with skin.

FAST 3DRY: High-tech 3D fabric that dries very quickly, helping the dispersion of moisture to the outside and leaving a pleasant feeling of freshness.

UP & DOWN 2.0: The innovative and exclusive UP & Down 2.0 technology ensures a precise and comfortable fit around the back of the head. The center wheel and the two side wings allow the quick adjustment of the helmet not only in width but also in height and tilt.

VISOR ATTACHMENT: Provided with attachment for fitting Zenith visors.

EARMUFFS FITTING: Provided with integrated slot for earmuffs with bayonet attachment. Compatible with KASK earmuffs.

Up & Down 2.0 size adjustment

Up & Down 2.0 size adjustment system guarantees improved fitting thanks to the updated design. Higher precision and comfort are provided by the freedom of movement of the lateral arms of the system.

The mechanism consists of a central ratchet wheel that allows to dial in the tension and two lateral winglets for rapid and exact tuning of the size. This advanced size adjustment system offers high stability of the helmet due to two additional adjustments of height and inclination, allowing correct positioning and ultimate fit of the helmet.

Additional Information

WARRANTY

3 years starting from the purchasing date.

SHELF LIFE

5 years starting from the production date (production date is printed on a label contained on the inside of the helmet).

Inspect the helmet regularly to check for any damage! Cuts, abrasions, deformation or changes in colour represent important elements for checking the helmet status.

CLEANING

Clean the helmet only with water, neutral pH soap and a soft, clean cloth. The inner lining should be washed by hand in cold water or in the washing machine (max 30°C - 85°F). Do not use chemical detergent or solvent.

STORAGE

When not in use the helmet should be stored away from direct sunlight or source of heat.

ADHESIVE APPLICATION

Do not apply adhesives, solvents, stickers or paint that do not comply with the manufacturer's specifications. Any alteration or intervention not provided for may impair its protective function.
