WHE0008.221
YELLOW FLUO

Technology

AIR

VENTILATION: Maximum ventilation thanks to the eight air intakes. High breathability due to the volume of circulating air inside the helmet and the minimum contact surface with the head.

FLUO

FLUORESCENT SHELL: High visibility fluorescent colour shell. Available in yellow fluo, orange fluo, red fluo, lime fluo color (the intensity of the luminescence colour will decrease in time).

LUMINESCENT

LUMINESCENT CLIPS: Helmet equipped with strong nylon external luminescent lamp carrying clips, compatible with all headlamps with elastic bands on the market.

REFLECTIVE

REFLECTING STICKERS: Adhesive reflecting stickers for high visibility.

CHINSTRAP
EN 12492

CHINSTRAP EN 12492: Four point chinstrap with which is crossed at the back to secure the helmet to the head better. The safety release system allows quick fastening and opening of the locking mechanism in conformity with EN 12492. Provided with lateral divider for adjusting the length of the straps.

ECO

ECO LEATHER CHIN PAD: Chin pad with eco-leather chinstrap. The anallergic and washable chinstrap is extremely comfortable and helps to avoid irritation of the skin.

RING TO HOOK

RING TO HOOK: Fitted with a special loop on the chinstrap which allows the helmet to be connected to the harness.

SANITIZED®

SANITIZED®: The Sanitized® treatment is an antibacterial treatment that acts as an internal deodorant counteracting the development of unpleasant odors. Thanks to its hygienic function, it effectively prevents bacterial proliferation by increasing freshness and comfort of the fabric in contact with skin.

FASTDRY

FAST 3DRY: High-tech 3D fabric that dries very quickly, helping the dispersion of moisture to the outside and leaving a pleasant feeling of freshness.

UP&DOWN 2.0

UP & DOWN 2.0: The innovative and exclusive UP & Down 2.0 technology ensures a precise and comfortable fit around the back of the head. The center wheel and the two side wings allow the quick adjustment of the helmet not only in width but also in height and tilt.

VISOR

VISOR ATTACHMENT: Provided with attachment for fitting visors.

EARMUFFS

EARMUFFS FITTING: Provided with integrated slot for earmuffs with bayonet attachment. Compatible with KASK earmuffs.

Performances

PROTECTION AGAINST TOP IMPACTS	 5 Kg da 2 m 100 J
PROTECTION AGAINST SIDE, FRONT AND REAR IMPACTS	 5 Kg da 0,5 m 25 J
PROTECTION AGAINST THE PENETRATION OF OBJECTS	 3 Kg da 1 m 30 J
CHIN STRAP RELEASE <50 kg	
RETENTION SYSTEM EFFECTIVENESS	

 Standard requirements

Additional Information

GUARANTEE

3 years starting from the purchasing date.

SHELF LIFE

10 years starting from the production date (production date is printed on a label contained on the inside of the helmet). Inspect the helmet regularly to check for any damage! Cuts, abrasions, deformation or changes in colour represent important elements for checking the helmet status.

CLEANING

Clean the helmet only with water, neutral pH soap and a soft, clean cloth. The inner lining should be washed by hand in cold water or in the washing machine (max 30°C - 85°F). Do not use chemical detergent or solvent.

STORAGE

When not in use the helmet should be stored away from direct sunlight or source of heat.

ADHESIVE APPLICATION

Do not apply adhesives, solvents, stickers or paint that do not comply with the manufacturer's specifications. Any alteration or intervention not provided for may impair its protective function.
